Bawa gave this talk at Mary Piper's house in Center Square, PA. Man has the capacity to understand God in a way that the rest of creation does not. Using the example of Abraham and the fire, we must not ask for help from the world. We need to have determination like the prophet Job.

7/24/1976

Crisi Beutler

Truth is to live as one family. All lives are as our own. Find your own faults. Think of all the people we have hurt. All people are equal. We need to have compassion for all lives and comfort others. Search for wisdom. Do not blame God if your wisdom is not right. Without determination or faith whose fault is it? We all come into the world the same. Correct only your own wisdom. Cut off the bad qualities. Unity will grow. Look inside for truth. Included in the talk is a short story about the Prophet (Sal.) and the Qutb. (B&W)

True Love

2/9/1980

55 mins.

Dr. Ganesan

Song: Let Us Join Together and Live

Dr. Markar

To feel another's hunger and sickness as our own, to treat other lives as equal in importance to our own, to live as brothers and sisters of one family is the way God embraces all lives. This is the way we must unite with others if we are to follow God's path. In this way, God created our souls before we came to this world of mind and illusion. Bawa Muhaiyaddeen contrasts this exalted love with the selfish love of the mind. Selfish love always wants something in return. We call this love, but it is not true love because we will discard these objects of our affection if it becomes advantageous to do so. True love is eternal, universal and devoid of any selfish motives. (B&W)

Forgiveness

Crisi Beutler

God does not test us. He is the One who can create or destroy a universe in the blink of an eye; how could we bear a test from Him? He does not judge us before the time of our death. He does not discard anyone. Until the last breath is drawn, he continues to protect, provide and offer forgiveness. He does not become angry. Can we even imagine what He would be capable of if He became angry? No. Up to the last moment of our life He is pleading with us to stop sinning and take on His qualities and actions. He does not give up on anyone. As long as our life remains, He remains tolerant and compassionate and offers His forgiveness. (B&W)

Crisi Beutler

The world is a field to be planted and harvested. What we obtain from this field in this life is what we will gain for ourselves after death. If you let the mind fly, you will harvest no peace. Chain up the mind, then plant the seeds of wisdom. Try to correct yourself inside. Bring your life to a good state. Planting these good seeds will lead to a bountiful harvest. When the crop is mature then winnow it before the angel of death comes.

We make ourselves humble through our wisdom and through our qualities. May we elevate God's title and lower all our titles and bring ourselves to the state of a slave. Only in that state can we attain peace in our lives.

The Teachings of Bawa Muhaiyaddeen (Hosted by Richard Miller)

6/4/1985

28 mins.

Crisi Beutler

We can obtain the direct experience of the nature of God in this life through His qualities. Before we can experience this, we must discard all that is inherent in the nature of creation and obtain a state of purity. Then it is possible to realize the attributes of God. Man has created differences in the name of God through religion. God is the Creator, Sustainer and Nourisher of all lives.

Song: Ya Allah, I Call To You

11/1/1985

Dr. Ganesan

In this talk from the 1985 Anniversary celebration, Bawa Muhaiyaddeen describes the relationship between man and God as a rainbow which draws the seawater up into itself, removes the salt, purifies it and then distributes it to all of creation. Prayer can be said to have two ends like a rainbow. If one end is seated in the open heart and the other in God, then God's `Ilm and the 3,000 gracious qualities can be drawn into the heart of the worshiper. He can share them with all of his brothers and sisters.

Mrs. Ganesan

Because we have accepted the Kalimah we must live with friendship, love and harmony with all our brothers and sisters. Love your neighbor as yourself. Carrying into action the qualities of God is Islam. Allah sends us to this earth with His capital. The profit or loss is ours. He will only sign the deed to the house we build either in heaven or in hell. It is our choice.

The second discourse of this tape likens the mind to a hunting dog chasing desires. If you want to break this vicious cycle then use love. Only through love can the qualities of mine and yours, envy and jealousy be eliminated.

How the Sheikh Trains the Child in Twelve Years

4/17/1986

58 mins.

Crisi Beutler

It takes 40 years of having a connection with God to become a Sheikh. He has to obtain that wisdom called Islam and beyond that the wisdom of God. If you plant a coconut tree you have to water it every 3 to 5 days for one year until it can put its roots down deep enough to draw its own water. Like this every word of the Sheikh is like water. If the child obeys every word of the sheikh for 12 years then unwavering faith will grow in him.

Man lives his life in the dream of his mind which causes him sorrow. To bring light to a dark home you need a lamp. To find peaceful purity we need the pure light of God's grace, wisdom, and qualities. Just like gems hidden in the earth, God's qualities and actions can be found within us. Love All Lives As Your Own

We have come here to learn about the creations, about God's Secret, and about God's grace. We are the form of light. There are six kinds of lives and we are the form of light. We have come here to learn the sirr, the secret connection between ourselves and His power, to study our Father and the story of were we were before. Within this body, within this show, there is much we must learn. We have come here to learn, not to dance on this dramatic stage or to watch show after show. We have come here to open and look within everything and see our Father. Each thing that we enjoy or feel sorrow about must be opened, and we must see God within. That is the lesson we have come to learn.
